

PIOMBINO ALTO 1276

M ATELIER HAUSSMANN
D ANDREAS HAUSSMANN

Thick steel tube, nuts, and screws, a tabletop – a PIOMBINO table consists of recurring elements. The legs rise from the ground, just to turn ninety degrees at the right spot and to hold the tabletop at the right place. The overlapping silhouettes are reminiscent of urban and industrial zones, systems in which all geometric shapes are connected, even melt together.

The four-legged version of PIOMBINO ALTO has a curved tabletop on both sides and one height-adjustable leg, which allows a secure stand even on uneven surfaces.

They are shipped as a flat-pack and can be set up easily.

PIOMBINO table series is a modular system. The seven different versions allow versatile applications, they fit together, they can stand alone.

L 49.9" x W 25" x H 42.3"

FRAME

STEEL TUBE,
POWDER COATED BLACK MATT
CHROME

TABLETOP

COMPOSITE PANEL COVERED WITH DUROPAL HPL

Thick steel tube, nuts, and screws, a tabletop – a PIOMBINO table consists of recurring elements. The legs rise from the ground, just to turn ninety degrees at the right spot and to hold the tabletop at the right place. The overlapping silhouettes are reminiscent of urban and industrial zones, systems in which all geometric shapes are connected, even melt together.

The three-legged PIOMBINO ALTO ensures a good stand even on uneven surfaces. Its tabletop is curved on one side, the straight sides of two tables can be put together.

PIOMBINO table series is a modular system. The seven different versions allow versatile applications, they fit together, they can stand alone. they can stand alone.
