

GRAPH STORAGE

M BARTMANN BERLIN
D SILVIA TERHEDEBRÜGGE

Both in the office and at home – GRAPH works as a small bookshelf as well as a floor-to-ceiling library. The simple installation ensures a quick setup with few wall connections. On a horizontal metal profile, the ash veneered sides are hung in regular intervals. The variable shelves made of aluminum sheet metal stabilize the structure and form, thanks to the different height of the rear walls, a lively colour grid that highlights the contents of the shelf and clearly stands out from the wall.
