

## ARX TABLE

**M** BULLENBERG  
**D** BULLENBERG

The ARX table, is made of solid oak. The table top is made of 3-4 solid planks with a thickness of 4-5 cm. The frame is made of powder-coated steel and has 4 individually screwed on solid oak legs. This table is designed to be highly individualized. Customization begins with size. You can adjust the table centimeter accuracy to your own spatial needs. You can choose any size up to 300 centimeters in length. Again, you may request a longer and wider or narrower and shorter table. It's up to you. Bullenberg gets the wood for their tables from their own von Alvensleben forestry operation, around the town of Erleben in Saxony-Anhalt. This way, each pile of logs processed passes only through their hands. They look for the trees themselves, cut them themselves, and thus can be extremely selective and guarantee the quality of the wood. Everyone involved in the production is located within a radius of 10 miles.
