

CROWD MOBILE

M COORDINATION BERLIN
D FLIP SELIN

Faceted plains and fragments reposition themselves in space, redefining their interdependent relationship by swaying in slight turbulence. Crowd was designed as a 'piece of furniture for the ceiling'. Its function is intellectual rather than physical. The shapes are reminiscent of a deconstructed Lamborghini or an exploded piece of contemporary architecture.

W 118.1" x D 86.6" x H 39.4"

MATERIAL

POLISHED AND ANODIZED ALUMINUM
