

FLAP Mirror

M ECHTSTAHL

D ULI BUDDÉ

»Functional and playful at the same time, FLAP looks like a graphic object on the wall. FLAP is a wall mirror and magnetic board at the same time. Designed in Germany, FLAP is a home accessory in which notes, business cards & Co can be placed on a metal flap, which partially overlaps the mirror surface. As a source of inspiration for FLAP, the designer used his habit of turning a page corner as a reminder.

»Once mounted on the wall, FLAP can be hung in four different positions.
