

OFFICE COLLECTION - LAPTOP STAND

M ECHTSTAHL

Whether in the home office or in the office: The ECHTSTAHL laptop stand lifts the screen to enable comfortable and ergonomic viewing. This relieves your back, shoulders, and neck and improves work efficiency. The laptop stand fits all laptops with a size of 11 to 17.3 inches, such as the MacBook, Dell Inspiron XPS, HP, ASUS, Chromebook, Lenovo Think-Pad, and many other notebooks and laptops.

The laptop stand is made of high-quality 2.5 mm thick powder-coated steel. For optimal protection and a high degree of flexibility, 8 premium felt pads are included in the scope of delivery. In addition, there are two rubber buffers that protect the frame of your laptop from scratches.

The open design ensures optimal ventilation and air circulation to prevent overheating. The opening on the back serves as cable management. In addition, the storage space under the laptop stand can be used for office items.
