

## OFFICE COLLECTION - MONITOR STAND

M ECHTSTAHL

Whether in the home office or in the office: the ECHTSTAHL monitor stand raises the screen to eye level to enable comfortable and ergonomic viewing. This relieves your back, shoulders, and neck and improves work efficiency. Use the new space under the monitor for mouse and keyboard, notebooks, PC accessories, and as a shelf.

The monitor stand is made of high-quality 4 mm thick powder-coated steel and can be evenly loaded up to 20 kg. For a non-slip stand, four rubber feet are included which can be optionally attached. Suitable for monitors, laptops, printers, fax, and TV monitor, and TV attachments.
