

SPULKA COLLECTION

M EGOÉ
D EGOÉ

Spulka's overall design makes them perfect for snack and coffee breaks. Thanks to their all-metal body, they are extremely durable and easy to maintain, and their weight provides excellent stability. Moreover, their circular base makes them relatively easy to handle, so relocation is no problem. Their surface is coated with galvanized zinc and white or blue powder. And if you've noticed they look like spoons, then you've got good observation skills!

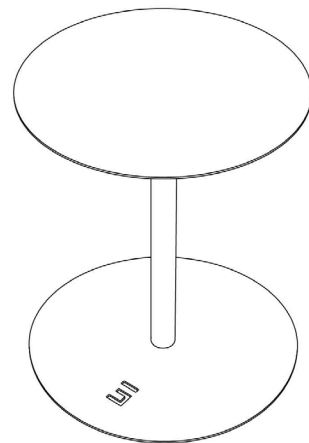

STOOL
D 17.7" x H 17.7"
