### Fliegenbein HL Pendant

Producing overhead ambient light that filters through a pleated silken shade and a frosted glass diffuser, Fliegenbein HL expands the Fliegenbein family into ceiling applications. Like the table and floor versions, the new pendant's voluminous shade has classic appeal, while the dialogue between shade and slender armature injects modern personality into a space. HL also features single and double tubes—available in light gray, dark grey, or brown matte lacquers—in its shade and mounting plate that harmonize with the overall Fliegenbein series's signature splayed leg. A wheat-colored electrical cord dances around the fixture's braided-steel suspension wire.
