

## Table lamp 42580-1 „RIPPLE light large“

The Traditional Family

Ripple is a moving light piece that expresses the beauty of the material glass, celebrating the process of it's making. Each Ripple set contains a large rotating projection dome and a smaller light dome encompassing the light source. A focused beam of light projects from the lighting dome through both walls of the mouth-blown, unevenly shaped and gently rotating projection dome. This creates a play of shadow and light in an ever changing, moving ripple pattern – beauty that goes beyond the material itself. Ripple is available in large and medium size and various surface finishes.

Design: poeticlab, 2014

Material: Brass, freeblown crystal

Special requests: Metal parts in different finishes, cable length, 110 or 220 V transformer.

Notification: All crystal parts are free blown and treated in a certain way to achieve the ripple effect. Please mind, that variations in size are possible and that glass quality cannot be compared with our regular standards.

Measurements: see backside

Lights: 1 Halogen G4; Max. Wattage: 35 W

measurements in cm

Table lamp 42581-1 „RIPPLE light medium“

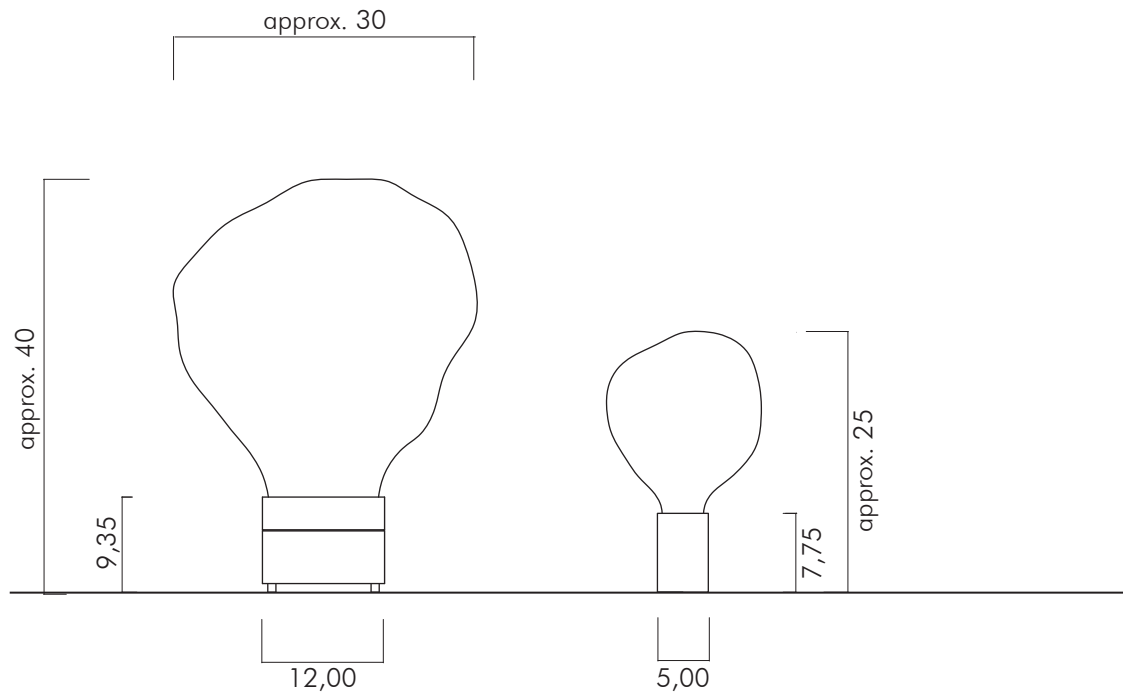

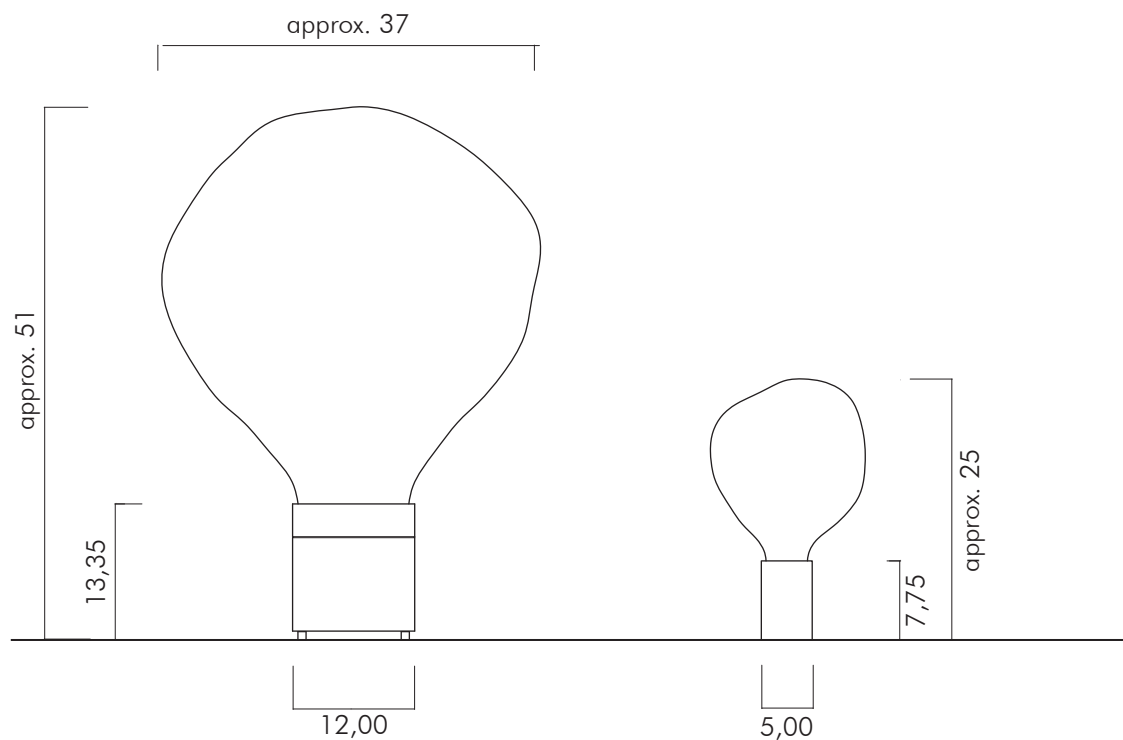

Table lamp 42580-1 „RIPPLE light large“
