

L6 CORINTH SIDE TABLE

M LOEHR

D DAVID AND JULIAN LÖHR

The CORINTH side table has the clarity and simplicity of a conceptual, artistic form study. The sculptural object is composed of three planes of the same format to form a columnar table shape referring to architectural history and minimal art. This logic of reduction continues in the choice of materials and surface – the side table is only available in clear lacquered solid beech.

TRANSPARENCY

The solid wood parts are manufactured by a company specializing in wood engineering in Bavaria. The painting of the raw components takes place in Berlin. The aluminium mounting plates specifically designed for the table are manufactured by a company specialising in sheet metal processing within Berlin.

MATERIALITY AND SURFACES

solid European beech

- natural, clear varnished

small parts

- mounting plates aluminium, powder coated
- gliders high-tech plastic, wool felt

SPECIFICATIONS

- The solid wood used originates from German or French forestry, which is essentially sustainable and ecologically regulated by the applicable laws. Raw, kiln-dried lumber is trimmed or glued into panels for production.

- Coloured and clear lacquers used on wood and composite materials are matt, lightfast, water-thinnable and based on an acrylic binder. This surface treatment fulfils: DIN 68861/1B (chemical exposure of furniture surfaces), EN 71-3 (migration of soluble heavy metals), DIN 53160 (part 1 and 2 saliva and perspiration fastness).
