

FRIEDRICH 21 MIRROR

M OBJEKTE UNSERER TAGE
D OBJEKTE UNSERER TAGE

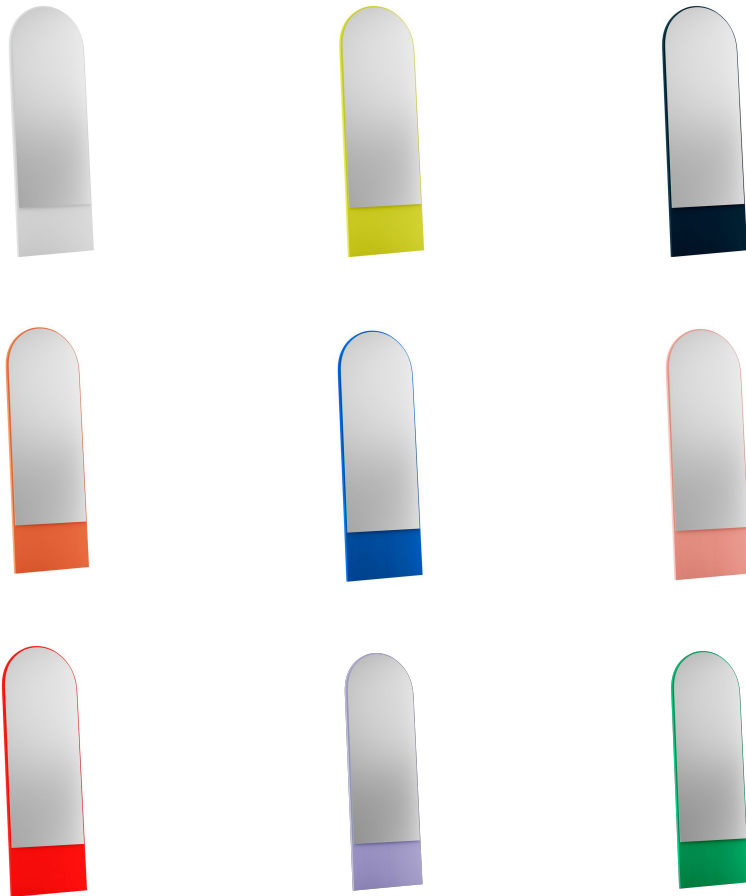

The FRIEDRICH mirror has been a central object in the OUT collection since its inception. Reduced to a fine line in profile, the FRIEDRICH unfolds its full expressive power on the surface. The renaissance of the round arch in the architecture of the early 2020s shapes the silhouette of the FRIEDRICH 21. The claim of functionality and aesthetics is also uncompromisingly maintained in the 2021 variant. The harmonious proportions of mirror glass to lacquered ash wood create an overall appearance that, depending on the color choice, stylishly blends into the interior or enriches the room with a striking presence.
