

## FRIEDRICH MAX MIRROR

M OBJEKTE UNSERER TAGE

D OBJEKTE UNSERER TAGE

The FRIEDRICH MAX is an object of maximum dimensions. The enormous mirror glass and the fluorescent colors unfold a strong graphic presence. The cut of the glass is reminiscent of a mirrored portal, which underlines the sculptural character of the object. A hallway gains perspective, the living room gets a central focal point and a floating haven of peace is created in the sleeping area. Formally, the design belongs to the FRIEDRICH family, which has been a central part of the collection since OUT was founded. The compositions of colors, surfaces and lines are what make them so charming. The FRIEDRICH MAX fits in harmoniously and yet is extremely different.
