The silhouette of the FRIEDRICH Mirror, characterized by straight lines and deliberately chosen curves, combines stability with lightness and elegance. The strength of FRIEDRICH lies in its simplicity. The design is basic and yet the logical consequence of formally thought-out mirror design. The harmonious proportions of mirror glass and varnished ash wood create an overall picture that stylishly blends into the interior depending on the choice of color or enriches the room with a striking presence.

**DESIGN**

David Spinner, 2015
