

LORENZ MIRROR

M OBJEKTE UNSERER TAGE
D OBJEKTE UNSERER TAGE

Reduction in form. Pleasure in color. The simple geometry allows the colors to shine. The flowery grain of the ash keeps drawing new patterns in the play of light and shadow. Every LORENZ Mirror is unique. The finely ground mirror glass is embedded flat and floats in lilac, aprikosa, luminous red or sulfur yellow. Individually and as a combination, LORENZ Mirrors look like an installation made of circles in wood, glass and color. The LORENZ Mirror is an object with clear aesthetics and cheerful lightness.
