The NEUMANN Side Table is a virtuoso design object. It is a functional and expressive side table. The shape of NEUMANN is made up of overlapping surfaces and intersections. Depending on the viewing angle, there are exciting visual axes. Like a playful sculpture, you want to discover NEUMANN from all angles. While the side table looks almost massive from the front, the side view reveals a finely drawn object of gentle delicacy. At the same time, angles, lines and triangles become spaces and levels that provide space for everyday objects.
