SCHÄFER RUG

Design OUT, 2022

Fluffy new wool and graphic lines in expressive colors. The SCHÄFER Rugs from OUT manifest what Berlin is all about: chaos and euphoria - a place of longing that always fascinates us. The OEKO-TEX® certified new wool with a cozy pile height invites you to walk barefoot. Since it's tufted as densely as possible, SCHÄFER simply feels good. The natural material has many advantages, it is self-cleaning and extremely durable. When walking, individual patterns are created which, depending on the incidence of light, open up a new perspective and interact with the furniture. The yarn is regionally dyed in bright OUT colors and makes SCHÄFER an inspiring object for every room. In the handtuft robot process, high-tech software and robot technology meet digital and manual craftsmanship. This makes it possible to produce a rug with the highest quality standards regionally and energy-efficiently in Germany. In addition to the collected sizes, custom sizes are also possible. A patented anti-slip underside ensures a firm hold on almost all surfaces. Cuddly soft, graphically independent - SCHÄFER is an object that gives pleasure to all senses in the long term.

Material

100% new wool from New Zealand, Oeko-Tex® certified; patented non-slip latex bottom

Production process

Handtuft robot process combined with manual crafts-manship. Made in Germany.

Weight

Large	25 kg
