The bed is a place everyone should look forward to. It is a place of yearning and security. It is a place where you rest consciously and where experiences are transformed into memories. The ZIANS Bed is such a place. It breaks through the everyday life and offers an intimate space of dreamy coziness. The natural way of sleeping is at the heart of the design and is fully reflected in all design decisions. The ZIANS bed is the conscious choice for a peaceful and healing retreat. The wood creates a visual and haptic contrast to the fluffy bedcover and embodies naturalness. The clear shape is the solid foundation for an island of pure security that defies worries of everyday life as well as cold air at night.
