

CAVETTO

M ONE FOR HUNDRED
D ANNA PRINZHORN

The OFH's first collection of table accessories, Cavetto, is made of solid pine, which for the most part comes from damaged wood stocks. The name "Cavetto" comes from the cavetto cutter, the tool used to hollow out the shape. Cavetto's design is straightforward yet poetic- typical for designer Klemens Schillinger.

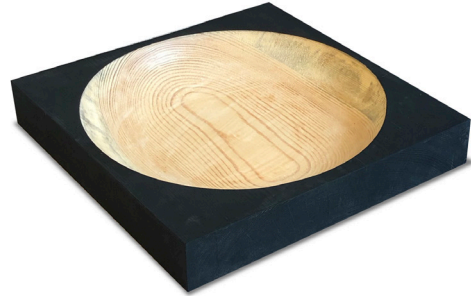

CUBE: L 3.9" x W 3.9"
