

## Atelier Shelf / Wardrobe

**M** RICHARD LAMPERT  
**D** MARCO DESSI

Simple idea, sophisticated product: slant-cut, sheet steel brackets and wooden shelves are combined to create a versatile and simple piece of furniture. Sophisticated: the mounting screws are covered by the shelves, an unconventional construction detail that underlines the design's two-dimensional aspect.

The powder-coated sheet steel is available in white, basalt grey and black and in a dark bronze shade. The shelves are available in white melamine-coated particle board or in solid, five-layer plywood (spruce or fir) stained with a small amount of white pigment, or in solid natural or smoked oak.

	Additional set of hooks (4pcs):		x	x

**Can be shipped by standard parcel service.**

\*Wood is a natural material and therefore changes in colour over time. The lacquer finish (with a small amount of white pigment) will minimise, but not completely prevent, these changes.
