

Milla Bistro Table

M RICHARD LAMPERT
D Alexander Seifried, 2014

The Milla bar table will be a real highlight in every room. Whether used as a meeting point in the office kitchen or combined with barstools at home, Milla makes for an unconventional yet practical place to have a snack or enjoy a meal. Once you have found the right place for this bar table, you'll wonder how you ever managed without it. Important items will always be at hand thanks to the useful storage space with sliding doors, positioned underneath the tabletop.

A contemporary piece of furniture, whose construction – similar to the construction of the eponymous high desk – is based on the Eiermann table. The round holes in the doors are a formal homage to the famous 1968 Eiermann partition.
