

## MONO stepstool

**M** RICHARD LAMPERT  
**D** STEFFEN KEHRLE, 2014

The new Mono is a lightweight and stable stool with twin functionality: its both a seat and a small, two-step ladder. Practical and versatile: for reaching those tricky top shelves of the kitchen cupboard or of the wardrobe in the bedroom. Use Mono as a small ladder by the bookshelf or as a stool for the kids to play with, to climb or build castles.

Mono is available in 3 colours (black, salmon and water blue) and is produced in North Italy, using recyclable, food-safe and resilient polyethylene. Mono is a practical and versatile everyday piece of furniture. Thanks to a cut-out handle and its low weight, Mono is also easy to move around.
