

# ONE TWO MIRROR

M RICHARD LAMPERT  
D STEFFEN KEHRLE

Richard Lampert continues their collaboration with the studio of German designer Steffen Kehrle. The latest design: a mirror that plays with perception and self-image. Appearing to be separated at the centre, the minimalist metal frame of OneTwo comprises two mirror surfaces positioned on different levels: the upper part of the mirror is offset to the rear by a few centimetres. OneTwo is a clever and contemporary home accessory in many respects. Lightweight and self-evident in its function, pure and locally manufactured with minimal use of materials.
