

## SALDO TRAY

M RICHARD LAMPERT  
D TILLA GOLDBERG

The design by Tilla Goldberg (Ippolito Fleitz Group) for Richard Lampert is a tray and a storage accessory, a cheerful companion and a tactile material experience; it's sustainable and "Made in Germany". SALTO is a congenial paper furniture for tidy desks, that serves as a tray on the tabletop for mobile phones and pens, as well as for a glass of water or a cup of espresso. The pouch hanging perpendicular to the table provides space for plugs, cables and other utensils. The soft office accessory nonchalantly docks onto the architectural and minimalist Eiermann tables – and, of course, onto other tables too. The Papyr® material is manufactured in Germany and is a durable, washable paper product. An environmentally friendly, plantbased material made from cellulose, which is OEKO-TEX® and FSC® certified.
