

Santa Lucia Chair

M RICHARD LAMPERT
D Herbert Hirche, 1969

This tubular steel and rattan chair has nothing in common with the widely used romantic wicker furniture in the country-house or colonial style. What we have here is a strictly architectural design by Bauhaus alumnus Herbert Hirche. The part you perceive as the backrest is also the armrest.

W 16.9" x D 21.3" x H 28.7"
SEAT HEIGHT 17.7"
