

CHAIRS CASINO

Designed by **Joan Gaspar**

DESCRIPTION

The Casino chair responds to the intention of merging, without paying functional or aesthetic prices, a chair that can be considered without arms but that at the same time has a low and long backrest that allows the tips to be used as a courtesy arm. With personality and uniqueness, its formal aspect intentionally seeks familiarity. It pretends to be a friendly chair, not very strident, without organic or exaggerated shapes. Casino seeks efficiency, both in its common use and in its formal aspect. It is simple and direct, with a friendly and elegant appearance. It transmits silence and containment, and achieves extreme comfort.
