Eikon Ray 'Brass' with black oak wood

DESIGN

Eikon Ray is a minimalist lamp made of certified wood and a metal lampshade which is galvanised with brass, copper or chrome. The wooden base and the handpolished shade are a perfect match for many home and interior design applications. The Eikon Ray's lampshade conveys discreet luxury and an elegant appearance. The magnetic connecting system allows the lampshade to be easily changed for another color, shape or material of the Eikon collection.
