

the EIKON SHELL

designed by Julia Jessen & Niklas Jessen | 2014

Eikon Shell „Olive“ with oak wood

Eikon Shell is a minimalist lamp made of certified wood and a coloured metal lampshade. The wooden base and the coloured shade are a perfect match for many home and interior design applications.

The light has a clean line that gives it a pure and contemporary look with a subtle reminder of the industrial age. The large Shell lampshade creates a very high light output. The magnetic connecting system allows the lampshade to be easily changed for another color or shape of the Eikon collection.
