Polo is an airy textile mesh which is used for back part of Chips lounge chair. It can also be used to upholster the backs and seats of, for example, a classic range of bentwood furniture.

If used on a seat the Polo mesh is always combined with special underlay material for increased durability.

## CUSTOMER'S OWN MATERIAL

If our range of upholstery materials does not meet your needs, you can provide your own material. The required amount of material as stated in the price list is calculated per piece on orders of more than 10 pieces. For orders of 1 to 10 pieces, the required amount should be consulted with a sales representative. For fabrics and vinyls, the calculation in the price list is based on material width of 140 cm. If you have a material with a different width, we recommend that you contact a sales representative to confirm the amount of material required. When upholstering furniture we work with the customary direction of a pattern, which can influence the final look of the upholstery. When supplying fabric with a distinctive pattern, we recommend that customers consult with us in advance to agree on the way the pattern is to be used.

Fabrics, artificial leathers and natural leathers should be sent in rolls only. Artificial leather and natural leather in particular can be subject to deformation when folded and such damage can be irreversible!

In case of COM, mark distinctly what shall be the face side. If the customer's fabric is chequered, striped or is of another special design which can be upholstered both horizontally and vertically, indicate how you wish to place the design on the seat and backrest. In this case, the material consumption can be higher than expected. If the face side or the direction of upholstering is not marked, we reserve the right to determine it by ourselves.

Regarding upholstery with customer's own material (COM), we reserve the right to refuse any material which is not suitable for upholstery of our seating furniture or is not delivered in the requested state.

## DECORATIVE NAILS

Upholstery of selected models can be complemented by decorative nails, especially if upholstered with artificial or natural leather. Antique bronze is our standard nail. Surcharge for decorative nails is listed for applicable models in the price list.

Please note that small fragments of plastic material that was used to position the nails may appear around the decorative nails.
