

## SAME SAME TABLE

### M VICTOR FOXTROT

Same same but different. Solid as a rock. Dining table and desk. The delicate steel frame is bent by hand. It consists of two identical parts that reflect each other and are only fastened at two points. The steel tube is powder-coated. The tabletop is supported by a steel frame. Particular about the design and construction is that it looks very light but is extreme-ly solid.

Outlets for wire management available.
