

SAME SAME NERO MARINACE TABLE

M VICTOR FOXTROT

Same same but different. Solid as a rock. Dining table and desk. The delicate steel frame is bent by hand. It consists of two identical parts that reflect each other and are only fastened at two points. The steel tube is powder-coated. The tabletop, made out of Nero Marinace, is supported by a steel frame. Particular about the design and construction is that it looks very light but is extremely solid. The unusual stone Nero Marinace is classified as granite. It is a riverbed that has petrified over thousands of years. Countless pebble stones of different sizes, shapes, and hues contrast with the even black background. Marinace is very hard and dense – even more than granite- and equally resistant.

L 70.9" x W 31.5" x H 29.1"
