

SWELL TIME DINING CHAIR

M VICTOR FOXTROT

„Having a swell time” was the ultimate expression of feeling great in the 1950s. And that’s exactly what you do while sitting on the chair. The delicate frame is made out of steel and bent by hand. The upholstery with its button stitching is reminiscent of British upholstered furniture. This design element contrasts the linear and graphic frame.

D 24.4" x W 23.6" x H 34.3"
