

## BENCH BÄNKLE

**M** DAS KLEINE B  
**D** JENS BAUMANN, JULIUS SCHREINER

A seat in the hallway – that would be it. You could sit down briefly to tie your shoes or put the heavy shopping bags at a comfortable height. The bench attracts all eyes, as narrow and yet inviting as it stands there. A concealed aluminium strip connects the piece of furniture to the wall, so that the stand is firm. And a shelf made of powder-coated aluminium provides space for shoes.
