

GARDERO-B WITH HOOK RAIL

M DAS KLEINE B

D JENS BAUMANN + SEBASTIAN FEHLBERGER

In the hallway, people put things down, stow them away and hang them up – often in a confined space. This is why corridor furniture must be well thought out: Functionality and lightness are the topics. The hall stand made of oiled oak offers space for coats and jackets without being space-filling itself. Bicycle helmets, caps, scarves, and more can be stored on the upper shelf and shoes can be placed on the three powder-coated aluminum shelves.
