

BERTOLD BOOKSHELF

M das kleine b
D JENS BAUMANN AND MICHAEL BUCK

Floating books - this is the idea of the shelf Bertold. This shelf has space for all three standard book heights; whether an art book, a novel, or paperback, all of them "float" together. Made of oak and stainless steel in Hamburg, Germany, The shelf is tipped 5degrees the wall- the same angle of inclination ladder rack BRECHT, which makes them work very well together.
