Package	Acceptance Criteria	Results
Primary Package	Container dedusted and wiped clean Container caps screwed on tight	Conforms
Secondary Package	Carton Sturdy and clean Sufficient cushion material exists Carton taped on all sides	Conforms

Please note that we test our gummies during the manufacturing process to ensure homogeneity and accurate CBD content. Unlike all of our other products, we do not test this finished product in-house due to issues that gelatin poses to the HPLC columns. These infused gummies are difficult to test due to the nature of the gelatin and the need for the gummy to be completely disintegrated and dissolved prior to testing. We at Folium stand behind the stated cannabinoid level in our gummies by ensuring that the bulk batch is tested for its homogeneity and CBD content before molding operation as well as by adding a 5% cannabinoid overage in every batch to account for small incidental variations.

FLAVORS INCLUDE: Orange, Lemon, Cherry, Lime

STORAGE CONDITIONS: Room Temperature, Store Out of Heat and Light, Under Sealed Conditions.
