DISCREET  
CARTRIDGE  
VAPE

# PULSAR 510 DL AUTO-DRAW VARIABLE VOLTAGE VAPE PEN | MANUAL

## SPECS:

Size: 4.6 x 0.8 x 0.8 inches (116 x 20 x 20mm)  
Maximum Cartridge Size: 0.4 inches (11.5mm)  
diameter, 2.3 inches (59mm) length  
Battery Capacity: 320mAh  
Voltage: 3.0V / 3.8V (1.8V Pre-Heat)  
Charging: USB-C  
Resistance: 1.0-2.0 Ω

## POWER ON/OFF:

Quickly pull - draw in air - from mouthpiece  
5 times to switch the power on or off.  
The light will flash once.

## PRE-HEATING:

Quickly (within 1.5 seconds) pull from  
mouthpiece 2 times to activate the  
pre-heat function.

## CHANGE VOLTAGE SETTING:

Quickly (within 1.5 seconds) pull from  
mouthpiece 3 times to change the setting.

Green Light: 3.0V

Red Light: 3.8V

## CHARGING:

Red light - Charging

Green light - Fully charged

## LOW BATTERY:

Red light will flash 10 times to alert user  
to low battery, and will then enter standby.  
Charge before continuing use.

## PROTECTION FEATURES:

Battery life/cartridge protection: After 10  
continuous seconds of use, the red light will  
flash 4 times, and the automatic vape time  
cutoff will activate, turning off the heat (but not  
the power). Over-voltage/short-circuit protection:  
red light will flash 3 times, and device will fully  
turn off.

## KIT INCLUDES:

1 x Pulsar 510 DL Battery  
1 x Bottom Magnetic Connector  
1 x USB-C Charging Cable

## QUICK START INSTRUCTIONS

1. Connect your device to a power source and  
charge until the light turns green.
2. Insert the 510-threaded cartridge of your  
choice.
3. Quickly pull 5 times to power on the device.
4. Quickly pull 3 times to change voltage to your  
preferred temp.
5. Quickly pull twice to start pre-heating.
6. Pull from mouthpiece and enjoy.

## HOW TO USE INSTRUCTIONS:

1. Make sure that the bottom magnetic  
connector is properly connected to the  
bottom of the unit. The battery will not charge  
if the bottom connector is not attached.
2. Attach battery to the provided USB-C cable  
and connect to a power source. You will  
see the light flash once when the battery  
is connected.
3. Allow the battery to fully charge before first  
use. The light will turn green. Disconnect  
the device from the power source before use.
4. Remove the bottom magnetic connector and  
firmly screw in the 510 threaded cartridge of  
your choice.
5. Insert the cartridge into the device and  
ensure that the bottom magnetic connector  
is properly connected.
6. If the unit is powered off, place your lips on  
the mouthpiece and give it 5 quick pulls to  
power on.
7. Adjust the voltage by giving the unit 3 quick  
pulls. (Green light - 3.0V / Red light - 3.8V)
8. Activate the pre-heat function to prime the  
cartridge by giving the unit 2 quick pulls.  
This will activate the unit at 1.8V for 15  
seconds. After 15 seconds, the unit will  
switch to your previously selected voltage.
9. Simply pull from mouthpiece to activate the  
cartridge vapor and enjoy your session!

## CLEANING INSTRUCTIONS:

1. Remove the bottom magnetic connector  
from the battery portion.
2. Wipe the outside and inside portion of the  
bottom magnetic connector with an  
isopropyl alcohol pad. Use an alcohol swab  
to wipe any excess oil out of the 510  
screw-in connector.
3. To clean the inside air pathway, use an  
alcohol-soaked swab. Using a circular  
motion, work your way up and down the air  
pathway until you do not see any more oil  
on the swab.
4. Do not submerge any part of the device in  
cleaning solution. Allow all parts to air dry  
prior to resuming use.

The mouthpiece is NOT removable.  
Attempting to remove it could impair  
or permanently disable the breath  
control functionality.

## IMPORTANT SAFETY WARNINGS

- Do not expose to extreme temperatures or  
direct sunlight.
- Do not drop the device or accessories.
- Do not drop or submerge in any liquid.
- Do not modify the electronics in any way.
- This device is intended for adults only.  
Do not sell or provide to minors. Keep all parts,  
concentrates, herbs, and liquids away from  
children and pets. This is not a medical device  
and is not intended to diagnose, treat,  
mitigate, cure, or prevent any ailment,  
disease, or other conditions. Consult a  
physician before use, especially if you  
suffer from heart disease or any other  
medical condition, or if you are pregnant  
or breastfeeding. Failure to follow any of  
these instructions could result in  
product damage, property damage,  
personal injury, and may void warranty.
