SPECS

- Battery Capacity: 1100mAh
- Ohms: 0.2-0.3
- Wattage: 15-25
- Input: 5V/1A

QUICK START GUIDE

First, attach the Pulsar Barb Fire Battery to the included USB Charger, and plug into a handy USB port. Make sure to not let the unit hang as this can damage the USB connection. While charging, a red light glows near micro USB plug. Light turns green when charged. Unit is fully charged, approx. 1.5 hours.

Before using the Pulsar Barb Fire, first, heat the unit a few times empty. This will burn off any impurities collected during manufacturing.

HOW TO USE

Remove the all metal mouthpiece. Load desired concentrate into the atomizer. Replace the mouthpiece. Click the button 5 times to turn on. When power button is held, the light above will show red, and when it turns to green, the device is ready for vaping. The Pulsar Barb Fire produces water pipe sized rips!

POWER LEVEL INDICATION

When the device is turned on, the power button light will flash three times to show the following power levels.

Green: 100% - 60%

Orange: 60% - 20%

Red: 20% - 0

Lower Battery Indicator: The Green & Red lights will flash alternately 5 times, then the device will shut down.
