Thick Oil & Concentrate Stealth Kit

KIT INCLUDES:

- Variable Voltage Battery
- 1 Dual Quartz Concentrate Tank
- 0.8ml Oil Tank
- USB Cable
- Adapter Ring

SPECS:

- 650mAh Battery
- 2.0 Ohm Coil
- Universal 510 Thread
- 3.4V / 3.7V / 4V Output
- 1A USB Input

FEATURES:

- Designed Specifically for Thick Oil Blends & Waxy Concentrates
- Easy to use 1 Button Operation
- Non-Leaking Design w/ Rubber Stopper
- Refillable Oil & Concentrate Tanks
- 80 Puffs per Charge
- 6 Month Limited Warranty on Battery. 3 Month Warranty on Tank. Used coils are not covered under warranty.

QUICK START GUIDE:

- To charge, attach battery to the included USB Charger, and plug into a handy USB port. Make sure to not let the unit hang as this can damage the USB connection. While charging, a red LED light will show on the battery. When fully charged, approx. 1.5-2 hours, the LED on the battery will shut off.
- To power ON/OFF, click button 5 times. To change the voltage of the battery, click the button 3 times. For 3.4V, the battery will flash 3 times GREEN. For 3.7V, BLUE. For 4.0V, RED. Hold the button in for 15 seconds to pre-heat.
- To fill oil tank, unscrew mouthpiece off the housing. Remove the center hole plug (DO NOT DISCARD). Carefully fill tank in the CENTER HOLE with a needle tip bottle. DO NOT fill the tank in the side wall air hole, and DO NOT overfill. Replace the rubber stopper to prevent leakage. Replace the mouthpiece.
- To fill concentrate tank, unscrew housing from the coil. Place desired concentrate on the dual quartz coils. Replace housing and mouthpiece.
- When ready to use, carefully screw the included Adapter Ring "Crown" side up onto the bottom threading of either tank. Simply drop tank into the battery housing, and the tank will be magnetically secured.
- To operate, set desired voltage, then press the button and inhale!
