

Budget **INKS**

REAL TESTIMONIALS

I have placed over 30 orders with Budget Inks for my Roland Printer. I save over \$10 per cartridge even over other third party brands. These cartridges perform just like OEM and my color gamuts stay consistent which means my customers can reorder prints with no variations between products.

I have placed over 19 orders with Budget Inks over 2 years, and they have been the best third party ink I've used.

I would recommend this product to both large and small shops!
