

## ► DESCHUTES ADA

A modernist study of material and craftsmanship. The Deschutes ADA sconce washes the wall in a warm and inviting glow. A subtle reveal behind the solid American hardwood shade casts the appearance of the fixture floating in space. This low-profile sconce meets the Americans with Disabilities Act requirements for public hallways.

Available in dark, luxurious Walnut or rift sawn White Oak and finished with a plant-based 0% VOC oil. All fixtures are handmade to order just for you at our Oregon studio.
