

## ► PRATT SCONCE

We are excited to introduce our latest collaboration featuring exquisite hand-made art tile from Pratt & Larson. The sconce features a lovely, low profile linen shade that elegantly diffuses light in all directions and highlights the beautiful dimensional art tile texture and artisan glaze.

Named for one of the founders of Pratt & Larson, this design is an original etching from Michael Pratt, manifested as a bas-relief to showcase the intricate line work of his sketch. This particular pattern, called Scraffito C, is a Pratt & Larson customer favorite and is available as a standard tile design so you can mix and match your décor seamlessly.
