

► WREN 8"

A dimmable LED is beautifully diffused through an 8" handblown, opal glass globe and nestled in an American hardwood canopy. Use Wren as a surface mount to line a hall in succession as an alternative to can lights or as a sconce around a bathroom mirror. With 950 lumens of light the Wren 8" is ideal for areas needing a greater amount of light. Each fixture is handmade to order for you.

Namesake: Wrens are small, inquisitive songbirds that symbolize action, accuracy, watchfulness and enthusiasm in life.
