

Muddy's Stages of Re-opening

Timeframes are estimates. We'll move to the next stage only when we have A) demonstrated "A+" performance at current stage and B) have the resources and preparation to confidently take the next step.

We'd rather err on the side of caution than over-reach; the wellbeing of both staff & guests is our top priority.

The further out a stage is, the more it is a "general outline"; we'll incorporate feedback, available resources, new guidance, etc as we plan the actual details of each stage. These notes are simply our "best guess" with current information. (as of July 1, 2020)
