What is Notebooking?

Notebooking is a new term for an old concept-journaling! Notebooking is simply taking the old boring, black and white composition notebook and replacing it with a 3 ring binder. Then the fun begins!

Why is Notebooking a great teaching tool?

Notebooking pages give your student a place to become creative. Through notebooking, your student will be using and developing many important skills. He/She will use narration skills, writing skills, organizational skills and even artistic skills. It also allows you to know how much your student has understood and gained from the subject.

How do I use these notebooking pages with Ancient Civilizations & the Bible?

You will find a notebooking page for most of the topics in each unit. The topics in each unit have been placed in alphabetical order to make it simpler to find the topic. Simply read the unit, then decide which topic you would like your student to “dig deeper” into. Use the page for your student to “re-tell” what they have learned on the topic.

Once the notebook is completed, your student will then be able to share his/her new-found knowledge with dad, grandparents, or even themselves in a creative and fun way. The notebooks also become a great way to look back over the year to see how your student has grown in language usage, penmanship, and creativity.
