How to use these calendar templates

These calendar templates are meant to be used on your homeschool wall calendar. They fit perfectly on the large poster board or bulletin board sized calendars found at most teacher supply stores. These templates were chosen with the day of the homeschool family in mind. They help to organize your family, school day, appointments, and even everyday chores. The templates are in a triangle shape so that the date on the calendar will not be covered up. The pages may be photo copied for use within your own family. To help the pieces last year after year, we suggest that you have them laminated.

Each calendar template is trimmed in a correlating color. The color of the trim matches the color of the storage pocket.

Cut out the pockets and glue them to the inside of a file folder. The markers can then be stored in the correct pocket.

How to fold and connect the folders for your lapbook.

1. Open up the folder and flatten it out.

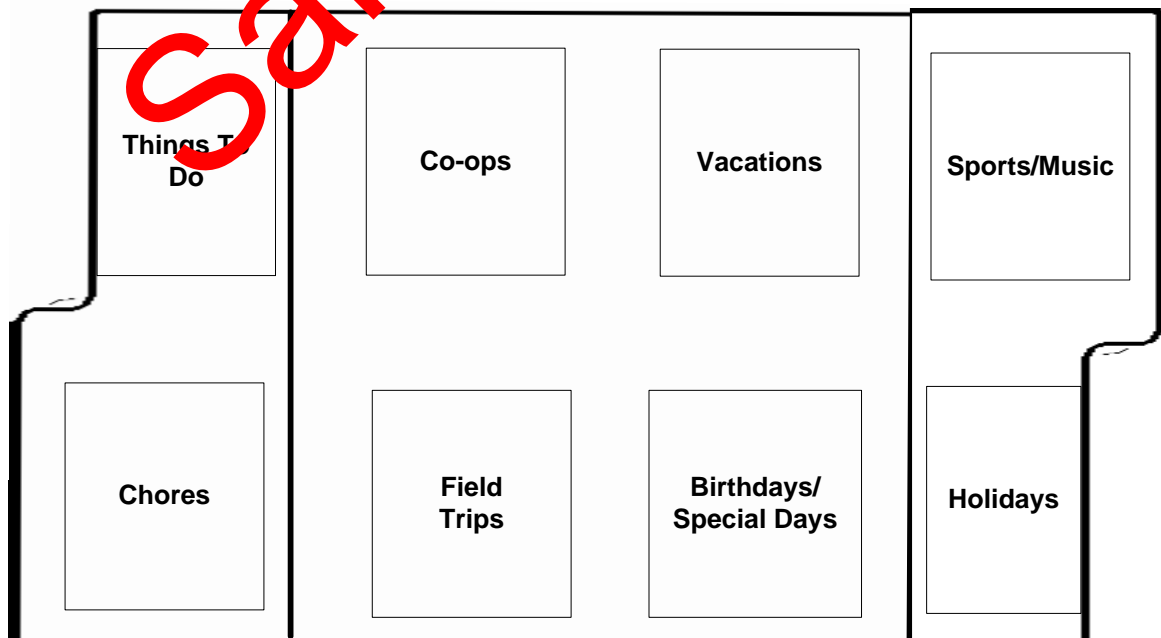

2. Take the right side and fold it all the way over until the tab is just before the middle crease in the folder. Do not overlap this crease with the tab.

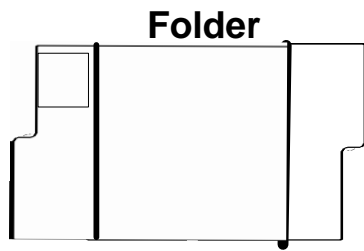

3. Fold the left hand side over just to the crease but not overlapping it. Your folder now has two flaps. We like to run a ruler down each fold to make the fold neater and flatter.

4. Open your newly folded folder and flatten. Find the storage pockets at the front of the book. They will need to be cut out and assembled first and then glue onto the folder. Use the layout key for correct pocket placement. Then cut out calendar templates and store into pockets according to color. Color of template outline should match color of pocket it goes into. Blank templates are provided for your own personalization.

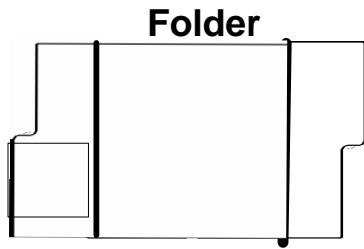

Calendar Pocket layout

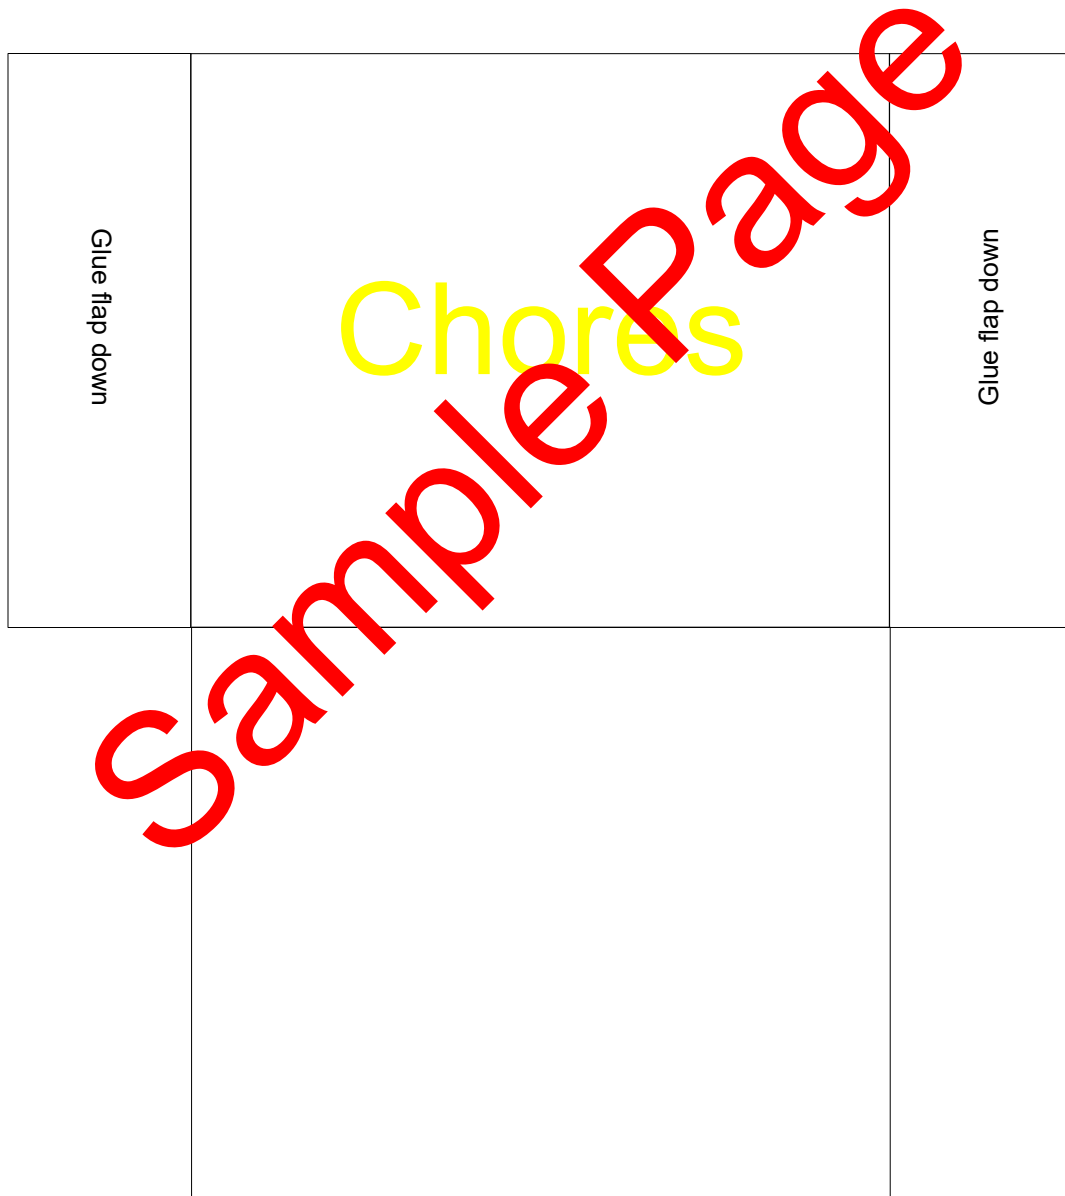

Cut out the booklet as one shape. DO NOT CUT OFF FLAPS. Fold bottom square back, then fold back the two flaps. This will create a pocket. Glue these flaps to the back of the pocket. Glue pocket into lapbook. Place the correct cards in the pocket for storage.
