Things to Know

Hamburger Fold-Fold horizontally

Hotdog Fold-Fold vertically

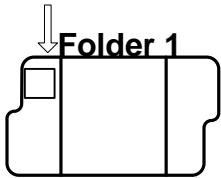

Dotted Lines-These are the cutting lines.

Accordion Fold-This fold is like making a paper fan. Fold on the first line so that title is on top. Turn over and fold on next line so that title is on top again. Turn over again and fold again on the next line so that title is on top. Continue until all folds are done.

Cover Labels-Most of the booklets that are folded look nicer with a label on top instead of just a blank space. They will be referred to as "cover label."

How do I know where to place each template in the folder?

This placement key tells you the template goes in the first folder at the top of the left flap.

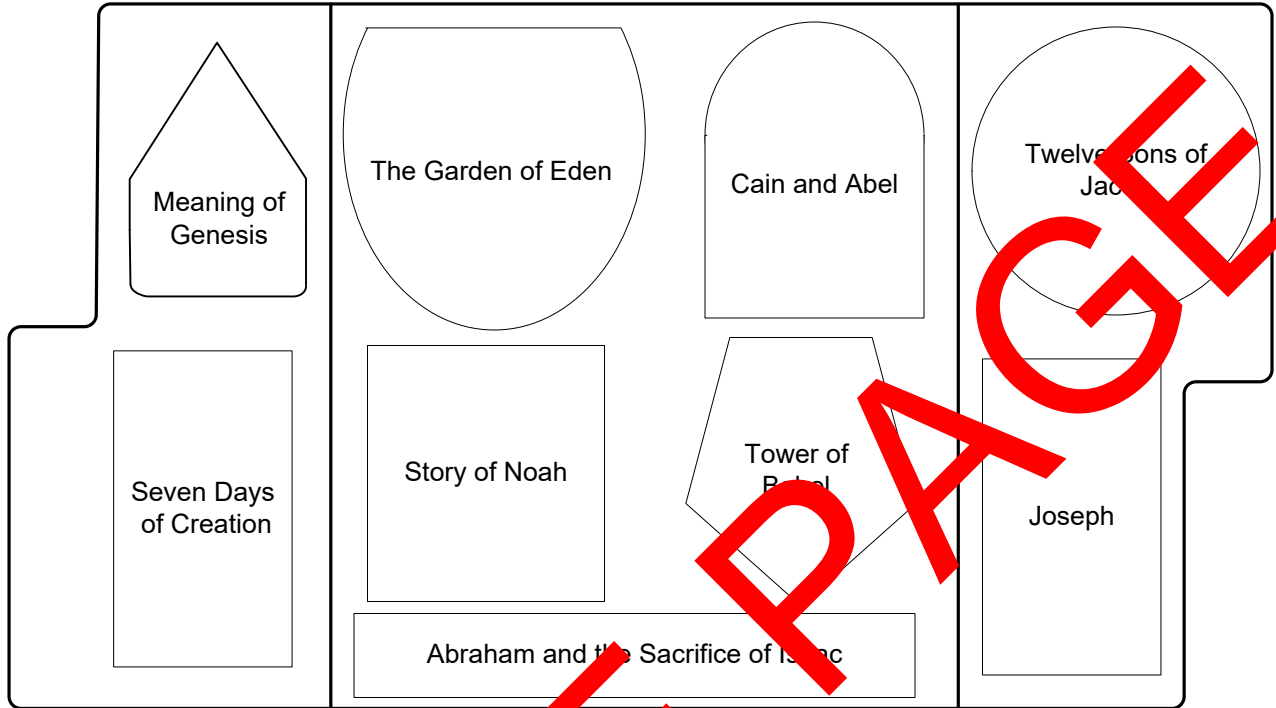

Folding a Book Base

Gather the number of folders required for the project. Fold them flat as seen here.

For each folder, fold the left and right sides inward toward the original line to create two flaps. Crease so that the highest part of each flap is touching the original line. It is important not to let the two flaps overlap. *You may want to take a ruler and run it down each crease to make it sharper.*

Booklet Placement Guide

Directions for Next page- Color and glue to back of lapbook.
