Things to Know

Hamburger Fold-Fold horizontally

Hotdog Fold-Fold vertically

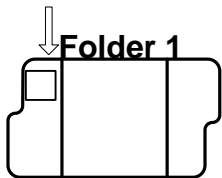

Dotted Lines-These are the cutting lines.

Accordion Fold-This fold is like making a paper fan. Fold on the first line so that title is on top. Turn over and fold on next line so that title is on top again. Turn over again and fold again on the next line so that title is on top. Continue until all folds are done.

Cover Labels-Most of the booklets that are folded look nicer with a label on top instead of just a blank space. They will be referred to as “cover label.”

How do I know where to place each template in the folder?

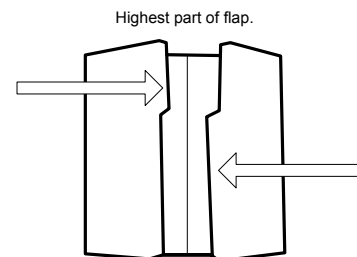

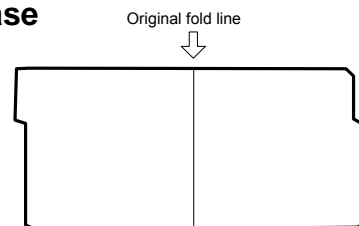

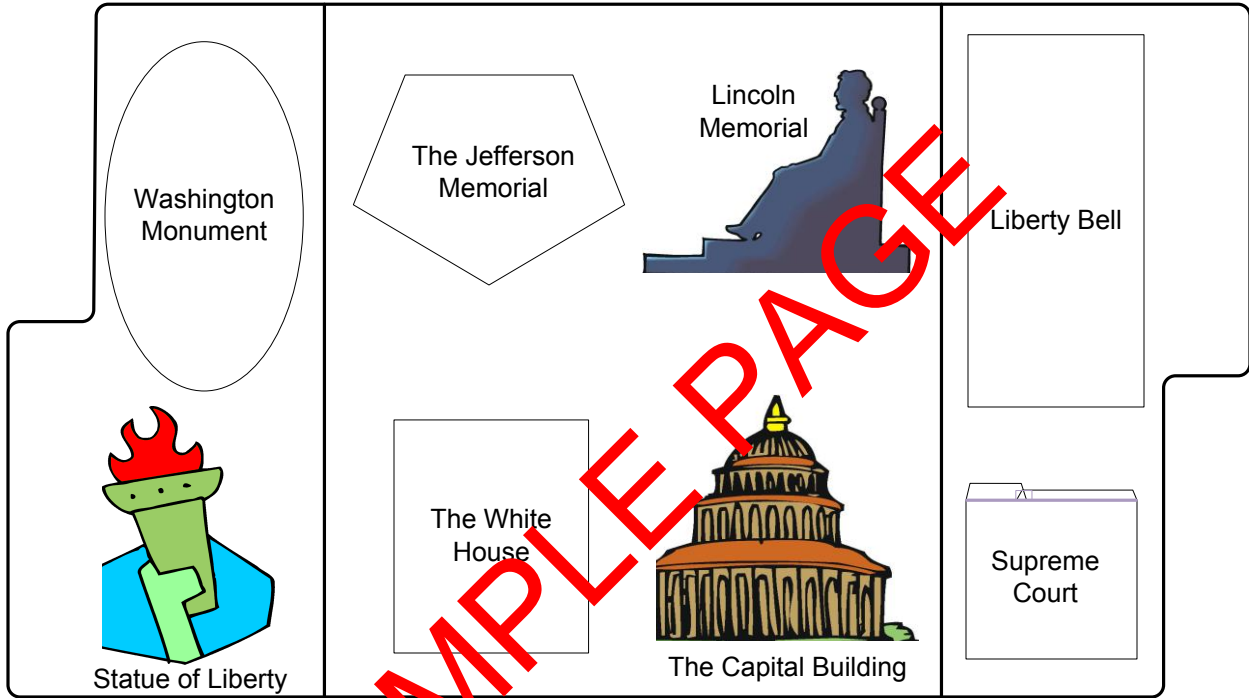

This placement key tells you the template goes in the first folder at the top of the left flap.

Folding a Lapbook Base

Gather the number of folders required for the project. Fold them flat as seen here.

For each folder, fold the left and right sides inward toward the original line to create two flaps. Crease so that the highest part of each flap is touching the original line. It is important not to let the two flaps overlap. *You may want to take a ruler and run it down each crease to make it sharper.*

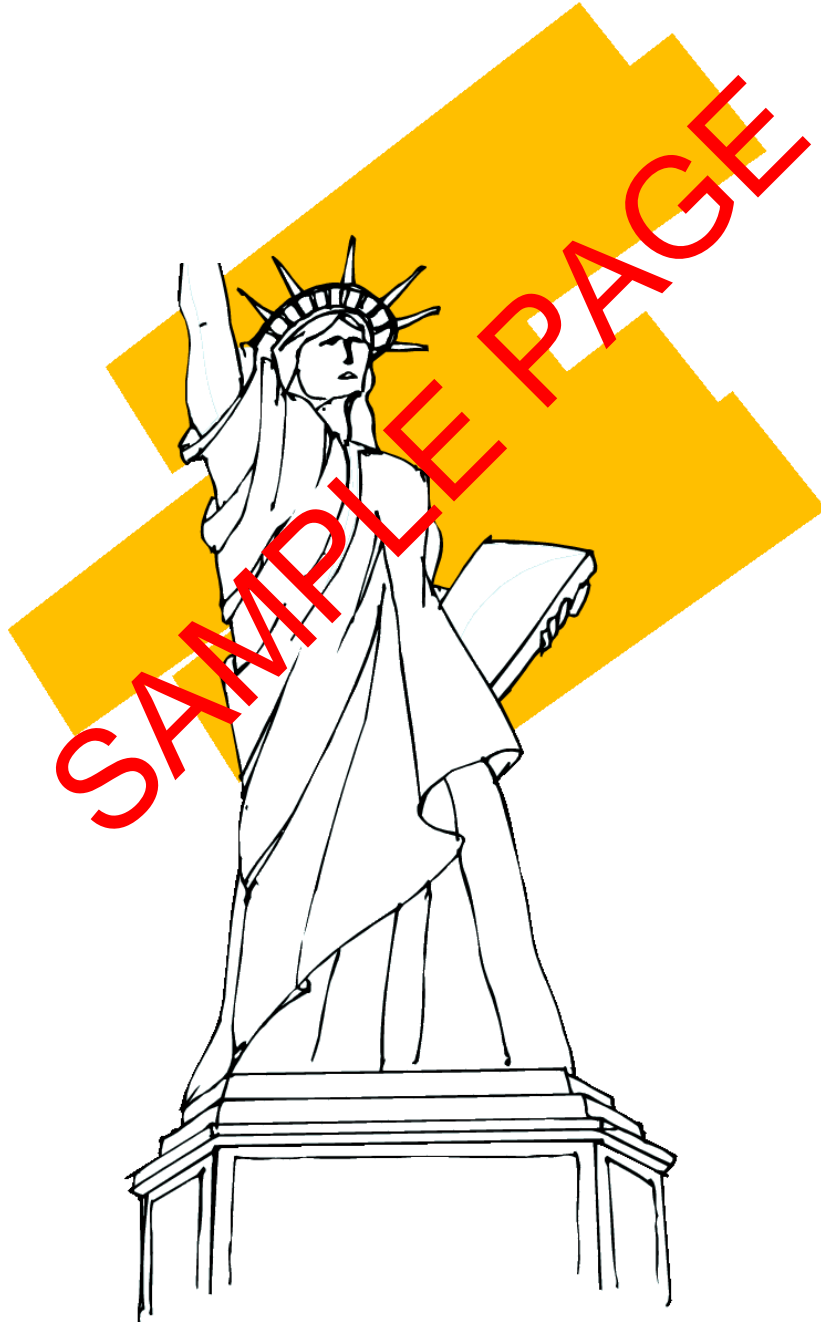

Complete the Scene

Cut out the scene on the dotted line. Complete the Picture- Lady Liberty's torch is missing. Draw and color it in. Then color her dress and pedestal. Glue to the front of your closed lapbook.

Historical Places

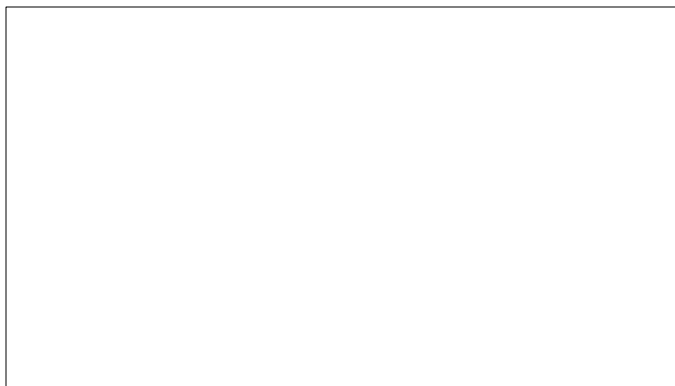

Washington Monument

The Washington Monument is the tallest cement structure in the world. It is located in Washington DC. and is 555 feet high. The monument is designed to look like a classic Egyptian obelisk. It was built in honor of George Washington who is referred to as the "Father of our Country." Construction was completed on July 4, 1848.

Around the base of the monument are fifty flags. They stand for the 50 states of the Union. Inside of the monument is an elevator to the top. Once at the top, you can see the White House, Lincoln Memorial, the Capitol Building, and the Jefferson Memorial. The area that houses all of these monuments is called The National Mall.

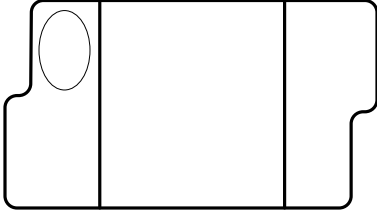

Did you know that if you live in DC you do not have a voting representative in Congress? If you look at the license plates on some cars, you will see the saying "No Taxation without Representation."

Using the internet, find a picture of a DC license plate. Glue it in the box.

The Statue of Liberty

The Statue of Liberty is located in New York Harbor in New York. It is stationed right at the arrival of Ellis Island. Lady Liberty was a gift to America from the people of France. The French gave her the name Liberty Enlightening the World.

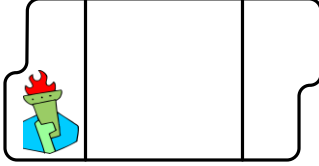

The statue is 305 feet tall including the base and pedestals. It is made of sheets of copper molded around an iron frame. She is dressed in a long flowing robe. The crown she wears on her head has seven spikes sticking out from it. They represent the seven seas and continents of the world.

One of the most obvious things about Lady Liberty is the torch that she holds in her right hand. The torch symbolizes freedom. In her left hand she holds a tablet inscribed with the day the United States declared its independence from England- July 4, 1776.

Ellis Island was a holding place for over 12 million immigrants to the U.S. between 1892 and 1954. For those people looking for a new home, it stood for a symbol of freedom.

Folder 1

Read **The Statue of Liberty**.

Hotdog fold on the middle line. Cut around shape. Do not cut on fold. Glue shape into lapbook with title showing.

Directions: Write what you learned inside the booklet.
