What is a Binder-Builder?

A Binder-Builder is a new name for an old concept! It is simply taking a 3-ring binder and colored cardstock and turning it into a wonderful showcase of your child's learning year!

How Do I Use it with the book

Passport to the World-Your A to Z Guided Language Tour?

This Binder-Builder was created to be used right along with the book. Each letter represents a different country. First, read the pages in the book. Next, complete the pages in the Binder-Builder. By doing the Binder-Builder pages, your child will be able to learn many extra things about each country and it is all stored in one fun-packed binder! No more lost papers.

Children learn best when they enjoy what they are doing! So relax and have fun learning about all of the wonderful countries. Use the Binder-Builder to enhance the learning experience. Feel free to tailor the booklets to your child. Some days you can simply draw instead of write. Or find the information on the internet and glue it onto the booklet. The choice is YOURS!

Each unit has two or more fun booklets to complete. So, gather the kids on the couch and let the learning begin!

How Do I Set Up My Binder-Builder?

Gather your pieces of cardstock and 3-hole punch them. Next, in the lower right-hand corner number your cardstock from 1-29. Place in 3-ring binder. Add your 3 labeled tabs behind the cardstock. At the end of the package we have included "extra learning" forms. These forms can be used to dig a little deeper into what you are studying. So, make as many copies of the forms as you need. You will store all of your worksheets behind these tabs.

The front of the first page will have your cover sheet glued to it. Then, your **first** "detail" sheet will be glued to the **back** of that page. The **booklets** for your **first** unit will then be glued to the **front** of your **second** page. This lay-out allows you to view anything for the unit you are studying at the same time! You will follow this process throughout the entire binder-builder.

Located at the top right corner of each page, you will find the name of the country that the pages go with in the *Passport to the World* book. Each page will also have all directions for the construction of the mini-booklet and what your student will record in the mini-booklet after reading to show what is learned. A small key is also here to show you where to glue each mini-booklet onto the card stock.

Cover Sheet for *Passport to the World*. Cut out the cover sheet and glue to the first page of your Binder-Builder. Fill out the information for your passport.
