Peter and the Wolf

By: MAESTRO CLASSICS™

Maestro Classics™ presents Prokofiev's most famous children's tale, *Peter and the Wolf*.

The music conducted by Stephen Simon, performed by the London Philharmonic Orchestra and narrated by Yadu, brings this classic story to life in a fresh and wondrous way.

Our "Peter and the Wolf" learning lapbook is designed to go right along with the CD from Maestro Classics. The first two folders correlate with the reading of the story. The third folder is very unique. Each of the Maestro Classics™ stories also includes a story set to a full orchestral score, but every CD also includes a different musical genre as well. In this lapbook, your child will learn about the history of Russian folk music, a section of the orchestra known called Woodwinds, musical notations and so much more!

Acknowledgments

Special thank you to Bonnie Ward Simon for permission to use her wonderful musical series.

And for her valuable input and editing of the original manuscript.

To Simon & Simon, L.L.C. for permission to use all clipart and story lines.,

Things to Know

Hamburger Fold-Fold horizontally

Hotdog Fold-Fold vertically

Folds-Labeled with a small line to show where the fold is and the words “hamburger fold” or “hotdog fold.”

Dotted Lines-These are the cutting lines

Accordion Fold-This fold is like making a paper fan. Fold on the first line so that title is on top. Turn over and fold on next line so that title is on top again. Turn over again and fold again on the next line so that title is on top. Continue until all folds are done.

Cover Labels-Most of the booklets that are folded look nicer with a label on top instead of just a blank space. They will be labeled “cover label.”

So where do the mini-booklets go?

A shape-coded and labeled KEY is included. This key shows you where all of the mini-booklets go in each folder. Keep this page handy! You'll also see at the top of the mini-booklet pages another graphic that shows you again where to place the booklet in each folder. So there are TWO ways to see where to place the booklet. We made it easy! You won't get lost.

Lapbook Assembly Choices

(see photos on how to fold and glue your folders together)

We recommend using Zip Dry Glue.

Choice #1 -Do not glue your folders together until you have completely finished all three folders. It is easier to work with one folder instead of two or three glued together.

Choice #2 -Glue all of your folders together before beginning. Some children like to see the entire project as they work on it. It helps with keeping up with which folder you are supposed to be working in. The choices are completely up to you and your child!

How Long Does it Take to Complete the Lapbook?

Doing a booklet a day, a 3-folder lapbook takes about one month to complete. However, you can expand the study portion and make it last as long as you like!

How to fold and connect the folders for your lapbook.

1. Gather the number of folders required for your particular lapbook.

2. Open up each folder and flatten it out.

3. Take the right side and fold it all the way over until the tab is just before the middle crease in the folder. Do not overlap this crease with the tab.

4. Fold the left hand-side over just to the crease but not overlapping it. Your folder now has two flaps. We like to run a ruler down each fold to make the fold neater and flatter. Do steps 3 and 4 to the remaining folders.

5. Take two of the folders and apply a generous amount of glue to their flaps. We recommend using Zip Dry Paper Glue.

6. Bring the flaps together and press so they stick together.

7. Do steps 5 and 6 to your remaining folders (if any).

8. The patterns for all the mini-booklets are provided. Just cut out, construct, and glue them into your lapbook. Refer to the color-coded placement page or the actual mini-booklet page for placement of each mini-booklet.

Can I store all of my lapbooks in ONE location?

Yes! A Journey Through Learning has come up with a way that you can store all of your lapbooks from your books in ONE convenient location. A 3-ring binder serves as a great place to keep your lapbooks. This method of storage not only keeps your lapbooks from getting lost but also keeps them neat and readily available to show to dad, grandparents, friends, etc. When they are not being shown off, just place the binder on your bookshelf! Below, we have given you step-by-step directions (with pictures) of how to create a storage binder.

How to make a storage system for your lapbook(s)

Roll out enough duct tape to go across the folders lengthwise.

Put duct tape sticky side up. Place binded edge of lapbook on the duct tape (no more than $\frac{1}{4}$ inch!).

Then stick duct tape to the other side again about $\frac{1}{4}$ inch. There will need to be enough tape to hole punch.

Stick duct tape into hole puncher but be careful not to punch holes in your folders.

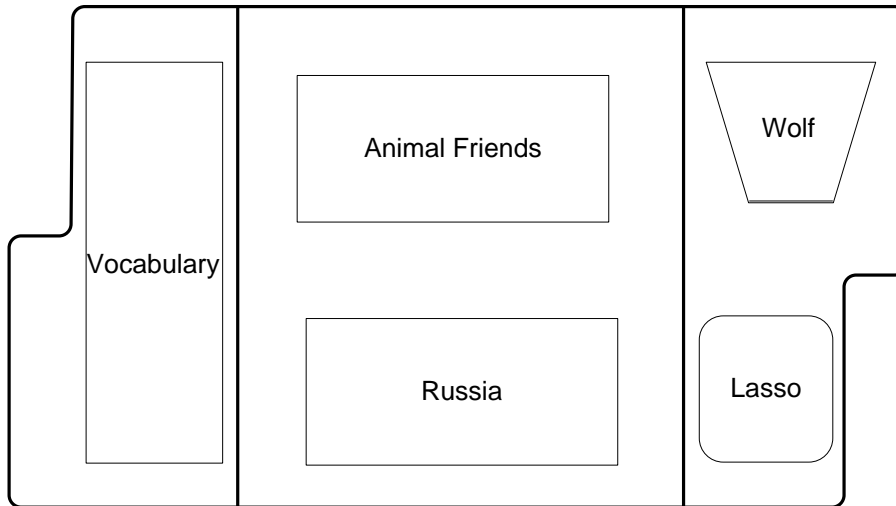

It will look like this.

Store folders in 3-ring binder.

Sample Page

Cut around the dotted line and glue scene to front of closed lapbook. Draw Peter and all of his friends in the meadow.

Peter and the Wolf

Sample Page

Folder 1

Cut out the booklet. Cut on the dotted lines to make tabs. Fold tabs inward so that they are on top of booklet. The word "vocabulary" should be showing to the right. Cut out the word labels from the next page and glue them on the top of the tabs. They should show when you have your tabs folded in. Glue booklet into lapbook.

Directions: Under each tab, write the definition of each word used in the story.

Symphony

Orchestra

Stealthily

Prowled

Scampered

Nimbly

Triumphant

Bird

Duck

Cat

Russia

Russia is so large that it is grouped into two continents; Europe and Asia. The Ural Mountains are what separates these two continents. Even though it “technically” sits on both, the greater portion of its people lives to the west of the mountains. Because of this, it is commonly grouped with Europe. Due to its extreme size, Russia is the largest country in the world and almost twice as big as America.

The country is surrounded by large bodies of water. The Baltic Sea sits to its west and the Pacific Ocean to its east. North of Russia is the Arctic Ocean and the Black Sea and the Caucasus to the south.

It is also bordered by several countries; Norway and Finland in the northwest; Estonia, Latvia, Belarus, Ukraine, Poland, and Lithuania in the west; Georgia and Azerbaijan in the southwest; and Kazakhstan, Mongolia, China, and North Korea along the southern border.

The capital of Russia is Moscow with a population of over 10.4 million people. Russian is the official language of the country. The people of Russia are called Russians.

Climate of Russia is very broad. It ranges from subarctic conditions in Siberia to savannas and grasslands in its deep south. The hills of the Urals Mountains consist of low lying hills, while parts of Siberia are covered with tundra and coniferous forest.

Russia broke away from being a communist country known as the USSR (the Soviet Union) to an independent people on August 24, 1991. Today is a republic nation.

Flag of Russia

Folder 1

Read **Russia**.

Cut out the pieces. **DO NOT CUT OFF TABS.** Stack together with title page on top and staple down the left side. Glue into lapbook.

Directions: Fill out the information on each booklet.
